EU opens its borders for residents of nine third countries

Included Australia and Japan

Madrid, 22.10.2020, 20:07 Time

USPA NEWS - Following a review under the recommendation on the gradual lifting of the temporary restrictions on non-essential travel into the EU, the Council updated the list of countries for which travel restrictions should be lifted. As stipulated in the Council recommendation, this list will continue to be reviewed regularly and, as the case may be, updated.

Based on the criteria and conditions set out in the recommendation, as from October 22, member states should gradually lift the travel restrictions at the external borders for residents of the following third countries: Australia, Japan, New Zealand, Rwanda, Singapore, South Korea, Thailand, Uruguay and China, in this case subject to confirmation of reciprocity

Travel restrictions should also be gradually lifted for the special administrative regions of China Hong Kong and Macao, subject to confirmation of reciprocity. Residents of Andorra, Monaco, San Marino and the Vatican should be considered as EU residents for the purpose of this recommendation.

The criteria to determine the third countries for which the current travel restriction should be lifted cover in particular the epidemiological situation and containment measures, including physical distancing, as well as economic and social considerations. They are applied cumulatively. Reciprocity should also be taken into account regularly and on a case-by-case basis. Schengen associated countries (Iceland, Lichtenstein, Norway, Switzerland) also take part in this recommendation.
